New in ATEC's winter program 2011: Type F – Fanatic black

From now on ATEC's favoured multi-spoke design is also offered with a black matt painting.

Fanatic black impresses with 15 filigree spokes which are connected at the bead of the rim and enlarge the wheel size optically. Furthermore type F is characterized by an extraordinary angular centre. The finish in black matt gives the wheel a self-confident and powerful look.

Fanatic is available with ABE in 6,5 x 15; 7,0 x 16; 7,5 x 17 and 8,0 x 18 for numerous vehicles, with 4- and 5-hole mountings.
