

Ralf Huber

**Ralf Huber strengthens the technical department of the AUTEC GmbH & Co. KG**

Since September 1<sup>st</sup>, Ralf Huber supports AUTEC's design and technical department under the direction of Marc Heissler.

Ralf Huber was trained as a design draughtsman at desitec, design & technik GmbH from 1997 until 2000 and worked as a CAD engineer especially in design development of aluminium wheels as well as the technical design of wheels made by light alloy, steel and synthetic materials. Furthermore he directed the in-house modelbuilding.

From 2000 to 2009 Ralph Huber was employed at the Werkzeug-, Formen- und Vorrichtungsbau GmbH & Co. KG (wfv) as project manager and CAD engineer 2D/3D. Among the above mentioned activities he was responsible for the 2D and 3D CAD constructions concerning the low pressure casting forms for aluminium wheels and underbody parts.

"We are happy", says Marc Heissler, "being able to strengthen our technical department with such a reliable and qualified employee."
