### AUTEC releases its brand-new catalogues!

AUTEC's spring catalogues 2010 are now available!

The Wheel Collection – AUTEC's sales manual for distribution partners – contains a demonstrative presentation of the product range as well as an extensive application list which allows to check the compatibility of vehicle and wheel quickly due to the well-arranged structure of the chart and the newly introduced "colour-column".

The Design Collection for end customers shows every wheel with huge photographs and detail images.

This year's wheel program has an unprecedented variety of products: With Race 4, Race 5, Galactic and Fanatic AUTEC presents 4 new wheel designs characterized by a very sportive, self-confident and aggressive look.

The new catalogues can be downloaded on [www.autec-wheels.de/kataloge1](http://www.autec-wheels.de/kataloge1).
