“Nordic“ – Winter is near!

The northern regions stand for perpetual ice, cold and snow – and for extreme challenges for men and material. AUTEC's wheel type “Nordic” meets these high requirements: It was designed especially for the use on icy roads and offers among a high-quality painting, also an open, easy-to-clean spoke structure as well as snow chain releases for numerous vehicles.

Nordic's beautiful design is featured by clear and harmonic lines and a painting in brilliant silver.

Type “N” is available with ABE in the wheel sizes 5,5 x 13, 5,5 x 14, 6,0 x 16, 6,5 x 15, 6,5 x 16, 7,0 x 16 and 7,5 x 17 with 4- and 5-hole mountings. It is applicable as a winter wheel particularly for sub-compact and compact cars.
